

2022 Elite Impact Formulary List

The 2022 Elite Impact drug list is shown below. The formulary is the list of drugs included in your prescription plan. Inclusion does not guarantee coverage. The following list is not a complete list of products that are on the formulary.

PLEASE NOTE: Brand-name drugs may move to non-preferred status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your ID card.

KEY

Brand-name drugs are listed in CAPITAL letters. Example: ABILIFY MAINTENA. Generic drugs are listed in lower-case letters. Example: ibuprofen.

For the member: FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate.

Excluded Drugs 2022

The excluded medications shown below are not covered on the formulary. In most cases, if you fill a prescription for one of these drugs, you will pay the full retail price. Please note that product placement on this list is subject to change throughout the year based upon market dynamics, new indications for existing products, and new product launches. The list below is not a complete list of all products considered excluded drugs by Kroger Prescription Plan; in most cases, multi-source brands are excluded from coverage with preference given generic equivalents.

Take action to avoid paying full price. If you're currently using one of the excluded medications, please ask your doctor to consider writing you a new prescription for one of the following preferred alternatives. Additional covered alternatives may be available. Costs for covered alternatives may vary. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your plan. For specific questions about your coverage, please call the number on your member ID card.
